

Philosophy Lecture Year Plan for 2019-20

- This year plan contains details of undergraduate lectures, graduate classes, and other regular events
- The three columns on the right indicate
- in which University term(s) each event takes place. The number of lectures or classes for that event in any term is found in the column for that term. (NB: the numbers for lectures/classes represent the *hours* allotted to the series, which may but need not be the same as the number of lectures/classes. For seminars etc, the number given is the number of events.)
- This information is believed correct as at 9 January 2020, but changes may occur before and during the academic year. Before you make plans for any particular term, it is wise to check the lecture lists online near to the start of term. You are advised to double-check any degree-specific lists (eg the combined PPE lecture list) against the Faculty lists.
- Errors/queries can be addressed [here](#).
